You are the Sarpanch of a Panchayat. There is a primary school run by the government in your area. Midday meals are provided to the children attending the school. The Headmaster has now appointed a new cook in the school to prepare the meals. However, when it is found that the cook is from Dalit community, almost half of the children belonging to higher castes are not allowed to take meals by their parents. Consequently the attendance in the school falls sharply. This could result in the possibility of discontinuation of midday meal scheme, thereafter of teaching staff and subsequent closing down the school.

1. Discuss some feasible strategies to overcome the conflict and to create right ambience.
2. What should be the responsibilities of different social segments and agencies to create positive social ambience for accepting such changes?"

Rampura, a remote district inhabited by a tribal population, is marked by extreme backwardness and abject poverty. Agriculture is the mainstay of the local population, though it is subsistence due to the very small landholdings. There is insignificant industrial or mining activity. Even the targeted welfare programs have inadequately benefited the tribal population. In this restrictive scenario, the youth has begun to migrate to other states to supplement the family income. Plight of minor girls is that their parents are persuaded by labour contractors to send them to work in the Bt Cotton farms of a nearby state. The soft fingers of the minor girls are well suited for plucking the cotton. The inadequate living and working conditions in these farms have caused serious health issues for the minor girls. NGOs in the districts of domicile and the cotton farms appear to be compromised and have not effectively espoused the twin issues of child labour and development of the area. You are appointed as the District Collector of Rampura. Identify the ethical issues involved. Which specific steps will you initiate to ameliorate the conditions of minor girls of your district and to improve the overall economic scenario in the district"

Sivakasi in Tamil Nadu is known for its manufacturing clusters on firecrackers and matches. The local economy of the area is largely dependent on firecrackers industry. It has led to tangible economic development and improved standard of living in the area. So far as child labour norms for hazardous industries like firecrackers industry are concerned, International Labour Organization (ILO) has set the minimum age as 18 years. In India, however, this age is 14 years. The units in industrial clusters of firecrackers can be classified into registered and non-registered entities. One typical unit is household-based work. Though the law is clear on the use of child labour employment norms in registered/non-registered units, it does not include household-based works. Household-based work means children working under the supervision of their parents/relatives. To evade child labour norms, several units project themselves as household-based works but employ children from outside. Needless to say that employing children saves the costs for these units leading to higher profits to the owners. On your visit to one of the units at Sivakasi, the owner takes you around the unit which has about 10-15 children below 14 years of age. The owner tells you that in his household-based unit, the children are all his relatives. You notice that several children smirk, when the owner tells you this. On deeper enquiry, you figure out that neither the owner nor the children are able to satisfactorily establish their relationship with each other.

1. Bring out and discuss the ethical issues involved in the above case.
2. What would be your reaction after your above visit?"

Dr X is a leading medical practitioner in a city. He has set up a charitable trust through which he plans to establish a super-speciality hospital in the city to cater to the medical needs of all sections of the society. Incidentally, that part of the State had been neglected over the years. The proposed hospital would be a boon for the region. You are heading the tax investigation agency of that region. During an inspection of the doctor's clinic, your officers have found out some major irregularities. A few of them are substantial which had resulted in considerable withholding of tax that should be paid by him now. The doctor is cooperative. He undertakes to pay the tax immediately. However, there are certain other deficiencies in his tax compliance which are purely technical in nature. If these technical defaults are pursued by the agency, considerable time and energy of the doctor will be diverted to issues which are not so serious, urgent or even helpful to the tax collection process. Further, in all probability, it will hamper the prospects of the hospital coming up. There are two options before you:

1. Taking a broader view, ensure substantial tax compliance and ignore defaults that are merely technical in nature.
2. Pursue the matter strictly and proceed on all fronts, whether substantial or merely technical. As the head of the tax agency, which course of action will you opt and why?

“Vinod is an honest and sincere IAS officer. Recently, he has taken over as Managing Director of the State Road Transport Corporation, his sixth transfer in the past three years. His peers acknowledge his vast knowledge, affability and uprightness. The Chairman of the State Road Transport Corporation is a powerful politician and is very close to the Chief Minister. Vinod comes to know about many alleged irregularities of the Corporation and the high-handedness of the Chairman in financial matters. A Board Member of the Corporation belonging to the Opposition Party meets Vinod and hands over a few documents along with a video recording in which the Chairman appears to be demanding bribe for placing a huge order for the supply of QMR tyres. Vinod recollects the Chairman expediting clearing of pending bills of QMR tyres. Vinod confronts the Board Member as to why he is shying away from exposing the Chairman with the so-called solid proof he has with him. The member informs him that the Chairman refuses to yield to his threats. He adds that Vinod may earn recognition and public support if he himself exposes the Chairman. Further, he tells Vinod that once his party comes to power, Vinod's professional growth would be assured. Vinod is aware that he may be penalized if he exposes the Chairman and may further be transferred to a distant place. He knows that the Opposition Party stands a better chance of coming to power in the forthcoming elections. However, he also realizes that the Board Member is trying to use him for his own political gains.

- (a) As a conscientious civil servant, evaluate the options available to Vinod.
- (b) In the light of the above case, comment upon the ethical issues that may arise due to the politicization of bureaucracy.”

“Raman is a senior IPS officer and has recently been posted as D.G. of a state. Among the various issues and problems/challenges which needed his immediate attention, the issue relating to recruitment of unemployed youth by an unknown terrorist group, was a matter of grave concern. It was noted that unemployment was relatively high in the state. The problem of unemployment amongst graduates and those with higher education was much more grave. Thus they were vulnerable and soft targets. In the review meeting taken by him with senior officers of DIG Range and above, it came to light that a new terrorist group has emerged at the global level. It has launched a massive drive to recruit young unemployed people. Special focus was to pick young people from a particular community. The said organisation seemed to have the clear objective of utilising/using them for carrying out militant activities. It was also gathered that the said (new) group is desperately trying to spread its tentacles in his state. A definite/reliable intelligence tip was received by the State CD and Cyber Cell that a large number of such unemployed youth have already been contacted by the terrorist outfit/group through social media and local communal organisations and other contacts. The need of the hour was to act swiftly and to check these elements/designs before they assume serious proportions. Discrete inquiries made by the police, through the Cyber Cell revealed that good numbers of unemployed youth are very active on Facebook, Instagram and Twitter. On an average, many of them were spending, 8 hours each day, using electronic devices/internet, etc. It also came to light that such unemployed youth were showing sympathy and endorsing the messages received from certain persons, allegedly the contact persons of that global terrorist group. Their social media accounts revealed their strong affinity such groups in as much as many of them started forwarding anti-national tweets on their WhatsApp and Facebook, etc. It seemed that they succumbed to their ploy and started propagating secessionist ideology. Their posts were hyper-critical of the government's initiatives, policies and subscribing to extreme beliefs and promoting extremism. (a) What are the options available to Raman to tackle the above situation? (b) What measures would you suggest for strengthening the existing set-up to ensure that such groups do not succeed in penetrating and vitiating the atmosphere in the state? (c) In the above scenario, what action plan would you advise for enhancing, the intelligence gathering mechanism of the police force?”

“The Supreme Court has banned mining in the Aravalli Hills to stop degradation the forest cover and to maintain ecological balance. However, the stone mining to still prevalent in the border district of the affected State with connivance of certain corrupt forest officials and politicians. Young and dynamic SP who was recently posted in the affected district promised to himself to stop this menace. In one of his surprise checks with his team, he found loaded truck with stone trying to escape the mining area. He tried to stop the truck but the truck driver overrun the police officer, killing him on the spot and thereafter managed to flee. Police filed FIR but no breakthrough was achieved in the case for almost three months. Ashok who was the Investigative Journalist working with leading TV channel, suo moto started investigating the case. Within one month, Ashok got breakthrough by interacting with local people, stone mining masia and government officials. He prepared his investigative story and presented to the CMD of the TV channel. He exposed in his investigative report the complete nexus of stone mafia working with blessing of corrupt police and civil officials and politicians. The politician who was involved in the mafia was no one else but local MLA who was considered to be very close to the Chief Minister. After going through the investigative report, the CMD advised Ashok to drop the idea of making the story public through electronic media. He informed that the local MLA was not only the relative of the owner of the TV channel but also had unofficially 20 percent share in the channel. The CMD further informed Ashok that his further promotion and hike in pay will be taken care of in addition the soft loan of 10 lakhs which he has taken from the TV channel for his son's chronic disease will be suitably adjusted if he hands over the investigative report to him.

- (a) What are the options available with Ashok to cope up with the situation?
- (b) Critically evaluate/examine each of the options identified by Ashok.
- (c) What are the ethical dilemmas being faced by Ashok?
- (d) Which of the options, do you think, would be the most appropriate for Ashok to adopt and why?
- (e) In the above scenario, what type of training would you suggest for police officers posted to such districts where stone mining illegal activities are rampant?”

Rajesh Kumar is a senior public servant, with a reputation of honesty and forthrightness, currently posted in the Finance Ministry as the Head of the Budget Division. His department is presently busy in organizing the budgetary support to the states, four of which are due to the polls within the financial year. This year's annual budget had allotted Rs 8300 crores for the National Housing Scheme (NHS), a centrally sponsored social housing scheme for the weaker sections of society. Rs 775 crores have been drawn for NHS till June. The Ministry of Commerce had long been pursuing a case for setting up a Special Economic Zone (SEZ) in a southern state to boost exports. After two years of detailed discussion between the center and state, the Union Cabinet approved the project in August. The process was initiated to acquire the necessary land. Eighteen months ago a leading Public Sector Unit (PSU) had projected the need for setting up a large natural gas processing plant in a northern state for the regional gas grid. The land is already in possession of the PSU. The gas grid is an essential component of the national energy security strategy. After three rounds of global bidding, the project was allotted to an MNC, M/s XYZ Hydrocarbons. The first tranche of payment to the MNC is scheduled to be made in December. Finance Ministry was asked for a timely allocation of an additional Rs 6000 crores for these two developmental projects. It was decided to recommend re-appropriation of this entire amount from NHS allocation. The file was forwarded to the Budget Department for their comments and further processing. On studying the case file, Rajesh Kumar realized that this re-appropriation may cause an inordinate delay in the execution of NHS, a project much publicized in the rallies of senior politicians. Correspondingly, the non-availability of finances would cause a financial loss in the SEZ and national embarrassment due to delayed payment in the international project. Rajesh Kumar discussed the matter with seniors. He was conveyed that this politically sensitive situation needs to be processed immediately. Rajesh Kumar realized that diversion of funds from the NHS could raise difficult questions for the government in the Parliament. Discuss the following with reference to this case:

1. Ethical issues involved in re-appropriation of funds from a welfare project to the development projects.
2. Given the need for proper utilization of public funds, discuss the options available to Rajesh Kumar. Is resigning a worthy option?

ABC Ltd. is a large transnational company having diversified business activities with a huge shareholder base. The company is continuously expanding and generating employment. The company, in its expansion and diversification programme, decides to establish a new plant at Vikaspuri, an area which is underdeveloped. The new plant is designed to use energy efficient technology that will help the company to save production cost by 20%. The company's decision goes well with the Government policy of attracting investment to develop such underdeveloped regions. The Government has also announced tax holiday for five years for the companies that invest in underdeveloped areas. However, the new plant may bring chaos for the inhabitants of Vikaspuri region which is otherwise tranquil. The new plant may result in increased cost of living, aliens migrating to the region, disturbing the social and economic order. The company sensing the possible protest tried to educate the people of Vikaspuri region and public in general that how its Corporate Social Responsibility (CSR) policy would help overcome the likely difficulties of the residents of Vikaspuri region. In spite of this the protests begin and some of the residents decided to approach the judiciary as their plea before the Government did not yield any result.

- (a) Identify the issues involved in the case.
- (b) What can be suggested to satisfy Company's goal and to address the resident's concern.

Subhash is Secretary, PWD in the State Government. He is a senior officer, known for his competence, integrity and dedication to work. He enjoys the trust and confidence of Minister incharge of PWD and Programme Implementation. As a part of his job profile, he is responsible for policy formulations, execution of projects relating to infrastructure initiatives in the State. Besides, he oversees the technical and administrative aspects relating to planning, designing and construction etc. Subhash's Minister is an important Minister in the state and significant growth in urban infrastructure development and road network has been registered during his tenure. He is very keen for launching of ambitious road construction project in the near future. Subhash is in regular touch with the Minister and is working various modalities of road construction project. Regular meetings, interactions and presentations are made by him to the Minister based on a formal public announcement of the project is made by the Minister. Subhash's only son Vikas is in real estate business. His son from his own sources is aware that a mega road project is on the anvil and announcement in this regard is expected anytime. He is very keen to know from his father the exact location of the upcoming project. He knows that there would be quantum jump in the prices of land in the vicinity. Buying land at this stage at cheaper prices would pay him rich dividends. He is pleading with him (his father) day in and day out to share him location of the proposed project. He assured him that he would handle the matter discreetly as it would not attract any adverse notice as he in the normal course, keeps on buying land as a part of his business. He feels pressurised because of constant pleadings by his son. Another significant aspect of the matter pertained to the extra/undue interest in the above project by the Minister PWD. His nephew was also having big infrastructure project company. In fact, the Minister has also introduced his nephew to him and indicated to him to take care of his nephew's business interest in the forthcoming project. The Minister encouraged him to act fast in the matter as early announcement and execution of mega road project would enhance his status in the party and public life. In the above backdrop, Subhash is in a fix as to the future course of action.

- (a) Discuss the ethical issues involved in the case.
- (b) Critically examine the options available to Subhash in the above situation?
- (c) Which of the above would be most appropriate and why??

“Mahatma Gandhi National Rural Employment Guarantee Program, MGNREGA was earlier known as National Rural Employment Scheme, NREGA. It is an Indian Social Welfare Program that aimed at fulfilling the 'Right to Work' provisions made in the Constitution. MGNREGA was launched in 2006 under Rural Employment Sector by the Ministry of Rural Development. Main objective of the program is to give legal guarantee of wage employment to the adult members of rural households who are willing to do unskilled manual labour work subject to a maximum of 100 days per year for every household. Every rural household has the right to register under the scheme, job card is issued to the registered, Job Card holder can seek employment. State government shall pay 25% of minimum wage for the first 30 days as compensatory daily unemployment allowance to the families and of wage for remaining period of the year. MGNREGA work was undertaken by various Gram Panchayats. You have been appointed as an Administrator Incharge of the District. You have been given the responsibility of monitoring MGNREGA work undertaken by various Gram Panchayats. You are also given the authority to give technical sanctions to all MGNREGA works. In one of the Panchayats in your jurisdiction, you notice that your predecessor has mismanaged the Program in terms of:

- (i) Money not disbursed to actual job-seekers.
 - (ii) Muster Rolls of the Labourers not properly maintained.
 - (iii) Mismatch between the work done and payments made.
 - (iv) Payments made to fictitious persons.
 - (v) Job Cards were given without looking into the need of person.
 - (vi) Mismanagement of funds & to the extent of siphoning of funds.
 - (vii) Approved works that never existed.
- (a) What is your reaction to the above situation and how do you restore the proper functioning of MGNREGA Program in this regard?

“At 9 pm on Saturday evening, Rashika, a Joint Secretary, was still engrossed in her work in her office. Her husband, Vikram, is an executive in an MNC and frequently out of town in connection with his work. Their two children aged 5 and 3 are looked after by their domestic helper. At 9:30 pm her superior, Mr. Suresh calls her and asks her to prepare a detailed note on an important matter to be discussed in a meeting in the Ministry. She realises, that she will have to work on Sunday to finish the additional task given by her superior. She reflects on how she had looked forward to this posting and had worked long hours for months to achieve it. She had kept the welfare of people uppermost in discharging her duties. She feels that she has not done enough justice to her family and she has not fulfilled her duties in discharging essential social obligations. Even as recently as last month she had to leave her sick child in the nanny's care as she had to work in the office. Now, she feels that she must draw a line, beyond which her personal life should take precedence over her professional responsibilities. She thinks that there should be reasonable limits to the work ethics such as punctuality, hard work, dedication to duty and selfless service.

- (a) Discuss the ethical issues involved in this case.
- (b) Briefly describe at least four laws that have been enacted by the Government with respect to providing a healthy, safe and equitable working environment for women.
- (c) Imagine you are in a similar situation. What suggestions would you make to mitigate such working conditions?”

“Prabhat was working as Vice President (Marketing) at Sterling Electric Ltd., a reputed multinational company. But presently the company was passing through the difficult times as the sales were continuously showing downward trend in the last two quarters. His division, which hitherto had been a major revenue contributor to the company's financial health, was now desperately trying to procure some big government order for them. But their best efforts did not yield any positive success or breakthrough. His was a professional company and his local bosses were under pressure from their London-based HO to show some positive results. In the last performance review meeting taken by the Executive Director (India Head), he was reprimanded for his poor performance. He assured them that his division is working on a special contract from the Ministry of Defence for a secret installation near Gwalior and tender is being submitted shortly. He was under extreme pressure and he was deeply perturbed. What aggravated the situation further was a warning from the top that if the deal is not clinched in favour of the company, his division might have to be closed and he may have to quit his lucrative job. There was another dimension which was causing him deep mental torture and agony. This pertained to his personal precarious financial health. He was a single earner in the family with two school-college going children and his old ailing mother. The heavy expenditure on education and medical was causing a big strain to his monthly pay packet. Regular EMI for housing loan taken from bank unavoidable and any default would render him liable for severe legal action. In the above backdrop, he was hoping for some miracle to happen. There was sudden turn of events. His Secretary informed that a gentleman Subhas Verma wanted to see him as he was interested in the position of Manager which was to be filled by him in the company. He further brought to his notice that his CV has been received through the office of the Minister of Defence. During interview of the candidate-Subhash Verma, he found him technically sound, resourceful and experienced marketeer. He seemed to be well-conversant with tendering procedures and having knack of follow-up and liaising in this regard Prabhat felt that he was better choice than the rest of the candidates who were recently interviewed by him in the last few days. Subhash Verma also indicated that he was in possession of the copies of the bid documents that the Unique Electronics Ltd. would be submitting the next day to the Defence Ministry for their tender. He offered to hand over those documents subject to his employment in the company on suitable terms and conditions. He made it clear that in the process, the Sterling Electric Ltd. could outbid their rival company and get the bid and hefty Defence Ministry order. He indicated that it will be win-win situation for both-him and the company. Prabhat was absolutely stunned. It was a mixed feeling of shock and thrill. He was uncomfortable and perspiring. If accepted, all his problems would vanish instantly and he may be rewarded for securing the much awaited tender and thereby boosting company's sales and financial health. He was in a fix as to the future course of action. He was wonder-struck at the guts of Subhash Verma in having surreptitiously removing his own company papers and offering to the rival company for a job. Being an experienced person, he was examining the pros and cons of

the proposal/situation and he asked him to come the next day.

- (a) Discuss the ethical issues involved in the case.
- (b) Critically examine the options available to Prabhat in the above situation.
- (c) Which of the above would be the most appropriate for Prabhat and why?

You are heading a district administration in a particular department. Your senior officer calls you from the State Headquarters and tells you that a plot in Rampur village is to have a building constructed on it for a school. A visit is scheduled during which he will visit the site along with the chief engineer and the senior architect. He wants you to check out all the papers relating to it and to ensure that the visit is properly arranged. You examine the file which relates to the period before you joined the department. The land was acquired from the local Panchayat at a nominal cost and the papers show that clearance certificates are available from the two of the three authorities who have to certify the site's suitability. There is no certification by the architect available on file. You decide to visit Rampur to ensure that all is in order as stated on file. When you visit Rampur, you find that the plot under reference is part of Thakurgarh Fort and that the walls, ramparts, etc., are running across it. The fort is well away from the main village, therefore a school here will be a serious inconvenience for the children. However, the area near the village has potential to expand into a larger residential area. The development charges on the existing plot, at the fort, will be very high and the question of heritage site has not been addressed. Moreover, the Sarpanch, at the time of acquisition of the land, was a relative of your predecessor. The whole transaction appears to have been done with some vested interest.

1. List the likely vested interests of the concerned parties.
2. Some of the options for action available to you are listed below. Discuss the merits and demerits of each of the options :
 1. You can await the visit of the superior officer and let him take a decision.
 2. You can seek his advice in writing or on phone.
 3. You can consult your predecessor/colleagues, etc., and then decide what to do.
 4. You can find out if any alternate plot can be got in exchange and then send a comprehensive written report. Can you suggest any other option with proper justification?

“You are working as an executive in a nationalized bank for several years. One day one of your close colleagues tells you that her father is suffering from heart disease and needs surgery immediately to survive. She also tells you that she has no insurance and the operation will cost about Rs. 10 lakh. You are also aware of the fact that her husband is no more and that she is from a lower middle class family. You are empathetic about her situation. However, apart from expressing your sympathy, you do not have the resources to fund her. A few weeks later, you ask her about the well-being of her father and she informs you about his successful surgery and that he is recovering. She then confides in you that the bank manager was kind enough to facilitate the release of Rs. 10 lakh from a dormant account of someone to pay for the operation with a promise that it should be confidential and be repaid at the earliest. She has already started paying it back and will continue to do so until it is all returned.

In line with the Directive Principles of State Policy enshrined in the Indian Constitution, the government has a constitutional obligation to ensure basic needs – Roti, Kapda aur Makan (Food, Clothes and Shelter) – for the under-privileged. Pursuing this mandate, the district administration proposed clearing a portion of forest land to develop housing for the homeless and economically weaker sections of the society. The proposed land, however, is an ecologically sensitive zone densely populated with age-old trees, medicinal plants and vital biodiversity. Besides, these forests help to regulate micro-climate and rainfalls, provide habitat for wildlife, support soil fertility and prevent land/soil erosion and sustain livelihoods of tribal and nomadic communities. In spite of the ecological and social costs, the administration argues in favour of the said proposal by highlighting that this very initiative addresses fundamental human rights as a critical welfare priority. Besides, it fulfils the government's duty to uplift & empower the poor through inclusive housing development. Further, these forest areas have become unsafe due to wild-animal threats and recurring human-wildlife conflicts. Lastly, clearing forest-zones may help to curb anti-social elements allegedly using these areas as hideouts, thereby enhancing law and order.

- (a) Can deforestation be ethically justified in the pursuit of social welfare objectives like, housing for the homeless?
- (b) What are the socio-economic, administrative and ethical challenges in balancing environmental conservation with human development?
- (c) What substantial alternatives or policy interventions can be proposed to ensure that both environmental integrity and human dignity are protected?

“There is a technological company named ABC Incorporated which is the second largest worldwide, situated in the Third World. You are the Executive Officer and the majority shareholder this company, The fast technological improvements have raised worries among environmental activists, regulatory authorities, and the general public over the sustainability of this scenario. You confront substantial issues about the business's environmental footprint. In 2023, your organization had a significant increase of 48% in greenhouse gas emissions compared to the levels recorded in 2019. The significant rise in energy consumption is mainly due to the surging energy requirements of your data centers, fuelled by the exponential expansion of Artificial Intelligence (AI). AI-powered services need much more computational resources and electrical energy compared to conventional online activities, notwithstanding their notable gains. The technology's proliferation has led to a growing concern over the environmental repercussions, resulting in an increase in warnings. AI models, especially those used in extensive machine learning and data processing, exhibit much greater energy consumption than conventional computer tasks, with an exponential increase. Although there is already a commitment and goal to achieve net zero emissions by 2030, the challenge of lowering emissions seems overwhelming as the integration of AI continues to increase. To achieve this goal, substantial investments in renewable energy use would be necessary. The difficulty is exacerbated by the competitive environment of the technology sector, where rapid innovation is essential for preserving market standing and shareholders worth. To achieve a balance between innovation, profitability and sustainability, a strategic move is necessary that is in line with both, business objectives and ethical obligations

- (a) What is your immediate response to the challenges posed in the above case?
- (b) Discuss the ethical issues involved in the above case.
- (c) Your company has been identified to be penalized by technological giants. What logical and ethical arguments will you put forth to convince about its necessity?
- (d) Being a conscience being, what measures would you adopt to maintain balance between AI innovation and environmental footprint?”

A big corporate house is engaged in manufacturing industrial chemicals on a large scale. It proposes to set up an additional unit. Many states rejected its proposal due to the detrimental effect on the environment. But one state government acceded to the request and permitted the unit close to a city, brushing aside all opposition. The unit was set up 10 years ago and was in full swing till recently. The pollution caused by the industrial effluents was affecting the land, water and crops in the area. It was also causing serious health problems to human beings and animals. This gave rise to a series of agitation thousands of people took part, creating a law and order problem necessitating stern police action. Following the public outcry, the State government ordered the closure of the factory. The closure of the factory resulted in the unemployment of not only those workers who were engaged in the factory but also those who were working in the ancillary units. It also very badly affected those industry which depended on the chemicals manufactured by it. As a senior officer entrusted with the responsibility of handling this issues, how are you going to address it?

An apparel manufacturing company having a large number of women employees was losing sales due to various factors. The company hired a reputed marketing executive, who increased the volume of sales within a short span of time. However, some unconfirmed reports came up regarding his indulgence in sexual harassment at the workplace.

After sometime a women employee launched a formal complaint to the management against the marketing executive about sexually harassing her. Faced with the companies' indifference, in not taking cognizance of her grievances, she lodged an FIR with the police. Realizing the sensitivity and gravity of the situation, the company called the women employee to negotiate. In that she was offered a hefty sum of money to withdraw the complaint and the FIR and also give in writing that the marketing executive is not involved in the case. Identify the ethical issues involved in this case. What options are available to the women employee?

You are a young, aspiring and sincere employee in a Government office working as an assistant, to the director of your department. Since you've joined recently, you need to learn and progress. Luckily your superior is very kind and ready to train you for your job. He is a very intelligent and well-informed person having knowledge of various departments. In short, you respect your boss and are looking forward to learn a lot from him. Since you've good tuning with the boss, he started depending on you. One day due to ill health he invited you at his place for finishing some urgent work. You reached his house and you heard shouting noises before you could ring the bell. You waited for a while. After entering, boss greeted you and explained the work. But you were constantly disturbed by the crying of a woman. At last, you inquired with the boss but his answer did not satisfy you. Next day, you were compelled to inquire further in the office and found out that his behavior is very bad at home with his wife. He also beat up his wife. His wife is not well educated and is a simple woman in comparison to her husband. You see that though your boss is a nice person in the office, he is engaged in domestic violence at home. In such a situation, you are left with the following options. Analyse each option with its consequences.

1. Just ignore thinking about it because it is their personal matter.
2. Report the case to the appropriate authority.
3. Your own innovative approach towards the situation."

You are recently posted as district development officer of a district. Shortly thereafter you found that there is considerable tension in the rural areas of your district on the issue of sending girls to schools. The elders of the village feel that many problems have come up because girls are being educated and they are stepping out of the safe environment of the household. They are of the view that the girls should be quickly married off with minimum education. The girls are also competing for jobs after education, which have traditionally remained in boys' exclusive domain, adding to unemployment amongst male population. The younger generation feels that in the present era, girls should have equal opportunities for education and employment, and other means of livelihood. The entire locality is divided between the elders and the younger lot and further sub-divided between sexes in both generations. You come to know that in Panchayat or in other local bodies or even in busy crossroads, the issue is being acrimoniously debated. One day you are informed that an unpleasant incident has taken place. Some girls were molested, when they were en route to schools. The incident led to clashes between several groups and a law and order problem has arisen. The elders after heated discussion have taken a joint decision not to allow girls to go to school and to socially boycott all such families, which do not follow their dictate.

1. What steps would you take to ensure girls' safety without disrupting their education?
2. How would you manage and mould matriarchic attitude of the village elders to ensure harmony in the inter-generational relations?

You are a no-nonsense, honest officer. You have been transferred to a remote district to head a department that is notorious for its inefficiency and callousness. You find that the main cause of the poor state of affairs is the indiscipline of a section of employees. They do not work themselves and also disrupt the working of others. You first warned the troublemakers to mend their ways or else face disciplinary action. When the warning had little effect, you issued a show cause notice to the ringleaders. As a retaliatory measure, these troublemakers instigated a woman employee amongst them to file a complaint of sexual harassment against you with the Women's Commission. The Commission promptly seeks your explanation. The matter is also publicized in the media to embarrass you further. Some of the options to handle this situation could be as follows :

1. Give your explanation to the Commission and go soft on the disciplinary action.
2. Ignore the Commission and proceed firmly with the disciplinary action.
3. Brief your higher-ups, seek directions from them and act accordingly. Suggest any other possible option(s). Evaluate all of them and suggest the best course of action, giving your reasons for it."

The Chairman of Bharat Missiles Ltd (BML) was watching a program on TV wherein the Prime Minister was addressing the nation on the necessity of developing a self-reliant India. He subconsciously nodded in agreement and smiled to himself as he mentally reviewed BML's journey in the past two decades. BML had admirably progressed from producing first-generation anti-tank guided missiles (ATGMs) to designing and producing state of the art ATGM weapon systems that would be the envy of any army. He sighed in reconciliation with his assumptions that the government would probably not alter the status quo of a ban on the export of military weaponry. To his surprise, the very next day he got a telephone call from the Director-General, Ministry of Defence, asking him to discuss the modalities of increasing BML production of ATGMs as there is a probability of exporting the same to a friendly country. The Director-General wanted the Chairman to discuss the details with his staff in Delhi next week. Two days later, at a press conference, the Defence Minister stated that he aims to double the current weapons export levels within five years. This would give an impetus to financing the development and manufacturing of indigenous weapons in the country. He also stated that all indigenous arms manufacturing nations have a very good record of the international arms trade. As the Chairman of BML, what are your views on the following points?

1. As an arms exporter of a responsible nation like India, what are the ethical issues involved in arms trade?
2. List five ethical factors that would influence the decision to sell arms to foreign governments.

It is a State where prohibition is in force. You are recently appointed as the Superintendent of Police of a district notorious for illicit distillation of liquor. The illicit liquor leads to many death, reported and unreported, and causes a major problem for the district authorities. The approach till now had been to view it as a law and order problem and tackle it accordingly. Raids, arrest, police cases, and criminal trials – all these had only limited impact. The problem remains as serious as ever. Your inspections show that the parts of the district where the distillation flourishes are economically, industrially and educationally backward. Agriculture is badly affected by poor irrigation facilities. Frequent clashes among communities gave boost to illicit distillation. No major initiatives had taken place in the past either from the government's side or from social organizations to improve the lot of the people. You are working as an Executive Engineer in the construction cell of a Municipal Corporation and are presently in-charge of the construction of a flyover. There are two Junior Engineers under you who have the responsibility of day-to-day inspection of the site and are reporting to you, while you are finally reporting to the Chief Engineer who heads the cell. While the construction is heading towards completion, the Junior Engineers have been regularly reporting that all construction is taking place as per design specifications. However, in one of your surprise inspections, you have noticed some serious deviations and lacunae which, in your opinion, are likely to affect the safety of the flyover. Rectification of these lacunae at this stage would require a substantial amount of demolition and rework which will cause a tangible loss to the contractor and will also delay completion. There is a lot of public pressure on the Corporation to get this construction completed because of heavy traffic congestion in the area. When you brought this matter to the notice of the Chief Engineer, he advised you that in his opinion it is not a very serious lapse and may be ignored. He advised for further expediting the project for completion in time. However, you are convinced that this was a serious matter which might affect public safety and should not be left unaddressed. What will you do in such a situation? Some of the options are given below. Evaluate the merits and demerits of each of these options and finally suggest what course of action you would like to take, giving reasons.

1. Follow the advice of the Chief Engineer and go ahead.
2. Make an exhaustive report of the situation bringing out all facts and analysis along with your own viewpoints stated clearly and seek for written orders from the chief Engineer.
3. Call for explanation from the Junior Engineers and issue orders to the contractor for necessary correction within targeted time.
4. Highlight the issue so that it reaches superiors above the Chief Engineer.
5. Considering the rigid attitude of the Chief Engineer, seek transfer from the project or report sick."

Suppose one of your close friends, who is also aspiring for civil services, comes to you for discussing some of the issues related to ethical conduct in public service. He raises the following points :

1. In the present times, when unethical environment is quite prevalent, individual attempts to stick to ethical principles may cause a lot of problems in one's career. It may also cause hardship to the family members as well as risk to one's life. Why should we not be pragmatic and follow the path of least resistance, and be happy with doing whatever good we can?
2. When so many people are adopting wrong means and are grossly harming the system, what difference would it make if only a small minority tries to be ethical? They are going to be rather ineffective and are bound to get frustrated.
3. If we become fussy about ethical considerations, will it not hamper the economic progress of our country? After all, in the present age of high competition, we cannot afford to be left behind in the race of development.
4. It is understandable that we should not get involved in grossly unethical practices, but giving and accepting small gratifications and doing small favours increases everybody's motivation. It also makes the system more efficient. What is wrong in adopting such practices? Critically analyze the above viewpoints. On the basis of this analysis, what will be your advice to your friend?

Excavating sand from river belts and transporting it through trucks and selling them in the black market was rampant. This illegal sand mining mafia was operating with the support of local functionaries and tribal musclemen who in turn were bribing selected poor tribals and had kept the tribals under fear and intimidation. Sunil being a sharp and energetic officer immediately grasped the ground realities and the modus operandi followed by the mafia through their devious and dubious mechanism. On making inquiries, he gathered that some of their own office employees are in hand and glove with them and have developed close unholy nexus. Sunil initiated stringent action against them and started conducting raids on their illegal operations of the movement of trucks filled with sand. The mafia got rattled as not many officers in the past had taken such strong steps against the mafia. Some of the office employees who were allegedly close to the mafia informed them that the officer is determined to clean up the mafia's illegal sand mining operations in that district and may cause them irreparable damage. The mafia turned hostile and launched a counter-offensive. The tribal musclemen and mafia started threatening him with dire consequences. His family (wife and old mother) were stalked and were under virtual surveillance and thus causing mental torture, agony and stress to all of them. The matter assumed serious proportions when a muscleman came to his office and threatened him to stop raids etc., otherwise, his fate will not be different than some of his predecessors (ten years back one officer was killed by the mafia) a) Identify the different options available to Sunil in attending this situation b) Critically evaluate each of the options listed by you. c) Which of the above, do you think, would be most appropriate for Sunil to adopt and why?"

You are a Public Information Officer (PIO) in a government department. You are aware that the RTI Act 2005 envisages transparency and accountability in administration. The act has functioned as a check on the supposedly arbitrarily administrative behaviour and actions. However, as a PIO you have observed that there are citizens who filed RTI applications not for themselves but on behalf of such stakeholders who purportedly want to have access to information to further their own interests. At the same time there are these RTI activists who routinely file RTI applications and attempt to extort money from the decision makers. This type of RTI activism has affected the functioning of the administration adversely and also possibly jeopardises the genuineness of the applications which are essentially aimed at getting justice. What measures would you suggest to separate genuine and non-genuine applications? Give merits and demerits of your suggestions.

Q232

Year: 2013

In the following questions, carefully study the cases presented and then answer the questions that follow: A Public Information Officer has received an application under RTI Act. Having gathered the information, the PIO discovers that the information pertains to some of the decisions taken by him, which were found to be not altogether right. There were other employees also who party to these decisions were. Disclosure of the information is likely to lead to disciplinary action with possibility of punishment against him as well as some of his colleagues. Non-disclosure or part disclosure or camouflaged disclosure of information will result into lesser punishment or no punishment. The PIO is otherwise an honest and conscientious person but this particular decision, on which the RTI application has been filed, turned out to be wrong. He comes to you for advice. The following are some suggested options. Please evaluate the merits and demerits of each of the options:

1. The PIO could refer the matter to his superior officer and seek his advice and act strictly in accordance with the advice, even though he is not completely in agreement with the advice of the superior.
2. The PIO could proceed on leave and leave the matter to be dealt by his successor in office or request for transfer of the application to another PIO.
3. The PIO could weigh the consequences of disclosing the information truthfully, including the effect on his career, and reply in a manner that would not place him or his career in jeopardy, but at the same time a little compromise can be made on the contents of the information.
4. The PIO could consult his other colleagues who are party to the decision and take action as per their advice. Also please indicate (without necessarily restricting to the above options) what you would like to advise, giving proper reasons. “

Land needed for mining, dams and other largescale projects is acquired mostly from Adivasis, hill dwellers and rural communities. The displaced persons are paid monetary compensation as per the legal provisions. However, the payment is often tardy. In any case, it cannot sustain the displaced families for long. These people do not possess marketable skills to engage in some other occupation. They end up as low paid migrant labourers. Moreover, their living is destroyed. Thus, the benefits of traditional ways of community development go to industries, industrialists and urban communities whereas the costs are passed on to these poor helpless people. This unjust distribution of costs and benefits is unethical. Suppose you have been entrusted with the task of drafting a better compensation-cum-rehabilitation policy for such displaced persons, how would you approach the problem and what would be the main elements of your suggested policy?

Rakesh is a responsible district level officer, who enjoys the trust of his higher officials. Knowing his honesty, the government entrusted him with the responsibility of identifying the beneficiaries under a health care scheme meant for senior citizens. The criteria to be a beneficiary are the following:

1. 60 years of age or above.
 2. Belonging to a reserved community.
 3. Family income of less than 1 Lakh rupees per annum.
 4. Post-treatment prognosis is likely to be high to make a positive difference to the quality of life of the beneficiary.
- One day, an old couple visited Rakesh's office with their application. They have been the residents of a village in his district since their birth. The old man is diagnosed with a rare condition that causes obstruction in the large intestine. As a consequence, he has severe abdominal pain frequently that prevents him from doing any physical labour. The couple has no children to support them. The expert surgeon whom they contacted is willing to do the surgery without charging any fee. However, the couple will have to bear the cost of incidental charges, such as medicines, hospitalization, etc., to the tune of rupees one lakh. The couple fulfils all the criteria except criterion 'b'. However, any financial aid would certainly make a significant difference in their quality of life. How should Rakesh respond to the situation?

Suppose you are an officer in-charge of implementing a social service scheme to provide support to old and destitute women. An old and illiterate woman comes to you to avail the benefits of the scheme. However, she has no documents to show that she fulfils the eligibility criteria. But after meeting her and listening to her you feel that she certainly needs support. Your enquiries also show that she is really destitute and living in a pitiable condition. You are in a dilemma as to what to do. Putting her under the scheme without documents would clearly be violation of rules. But denying her the support would be cruel and inhuman.

1. Can you think of a rational way to resolve this dilemma?
2. Give your reasons for it.

In our country, the migration of rural people to towns and cities is increasing drastically. This is causing serious problems both in the rural as well as in the urban areas. In fact, things are becoming really unmanageable. Can you analyze this problem in detail and indicate not only the socio-economic but also the emotional and attitudinal factors responsible for this problem? Also, distinctly bring out why—

1. Educated rural youth are trying to shift to urban areas;
2. Landless poor people are migrating to urban slums;
3. Even some farmers are selling off their land and trying to settle in urban areas taking up petty jobs. What feasible steps can you suggest which will be effective in controlling this serious problem of our country?"

An elevated corridor is being constructed to reduce traffic congestion in the capital of a particular state. You have been selected as project manager of this prestigious project on your professional competence and experience. The deadline is to complete the project in the next two years by 30 June 2021, since the project is to be inaugurated by the Chief Minister before the elections are announced in the second week of July 2021. While carrying out the surprise inspection by the inspecting team, a minor crack was noticed in one of the piers of the elevated corridor possibly due to poor material used. You immediately informed the chief engineer and stopped further work. It was assessed by you that a minimum of three piers of the elevated corridor have to be demolished and reconstructed. But this process will delay the project minimum by four to six months. But the chief engineer overruled the observation of the inspecting team on the ground that it was a minor crack that will not in any way impact the strength and durability of the bridge. He ordered you to overlook the observation of the inspecting team and continue working with the same speed and tempo. He informed you that the minister does not want any delay as he wants the Chief Minister to inaugurate the elevated corridor before the elections are declared. Also informed you that the contractor is a far relative of the minister and he wants him to finish the project. He also gave you a hint that your further promotion as an additional chief engineer is under consideration by the ministry. However, you strongly felt that the minor crack in the pier in the elevated corridor will adversely affect the health and life of the bridge and therefore it will be very dangerous not to repair the elevated corridor. a) Under the given conditions, what are the options available to you as a project manager? b) What are the ethical dilemmas being faced by the project manager and his response to overcome such challenges? c) What are the professional challenges likely to be faced by the project manager and his response to overcome such challenges? d) What can be the consequences of overlooking the observation raised by the inspecting team?"

Edward Snowden, a computer expert and former CIA administrator, released confidential Government documents to the press about the existence of Government surveillance programmes. According to many legal experts and the US Government, his action violated the Espionage act of 1971, which identified the leak of State secret as an act of treason. Yet, despite the fact that he broke the law, Snowden argued that he had a moral obligation to act. He gave a justification for his “whistle blowing” by stating that he had a duty “to inform the public as to that which is done in their name and that which is done against them.” According to Snowden, the Government's violation of privacy had to be exposed regardless of legality since more substantive issues of social action and public morality were involved here. Many agreed with Snowden. Few argued that he broke the law and compromised national security, for which he should be held accountable. Do you agree that Snowden's actions were ethically justified even if legally prohibited? Why or why not? Make an argument by weighing the competing values in this case.

A fresh engineering graduate gets a job in a prestigious chemical industry. She likes the work. The salary is also good. However, after a few months accidentally discovers that a highly toxic waste is being secretly discharged into a river nearby. This is causing health problems to the villagers downstream who depend on the river for their water needs. She is perturbed and mentions her concern to her colleagues who have been with the company for longer periods. They advise her to keep quiet as anyone who mentions the topic is summarily dismissed. She cannot risk losing her job as she is the sole bread-winner for her family and has to support her ailing parents and siblings. At first, she thinks that if her seniors are keeping quiet, why should she stick out her neck. But her conscience pricks her to do something to save the river and the people who depend upon it. At heart she feels that the advice of silence given by her friends is not correct though she cannot give reasons for it. She thinks you are a wise person and seeks your advice.

A private company is known for its efficiency, transparency and employee welfare. The company though owned by a private individual has a cooperative character where employees feel a sense of ownership. The company employs nearly 700 personnel and they have voluntarily decided not to form a union. One day suddenly in the morning, about 40 men belonging to a political party gatecrashed into the factory demanding jobs in the factory. They threatened the management and employees, and also used foul language. The employees feel demoralized. It was clear that those people who gate-crashed wanted to be on the payroll of the company as well as continue as the volunteers/members of the party. The company maintains high standards in integrity and does not extend favours to civil administration that also includes law enforcement agency. Such incidents occur in public sector also.

1. Assume you are the CEO of the company. What would you do to diffuse the volatile situation on the date of gate-crashing with the violent mob sitting inside the company premises?
2. What could be the long-term solution to the issue discussed in the case?
3. Every solution/action that you suggest will have a positive and a negative impact on you (as CEO), the employees and the performance of the employees. Analyze the consequences of each of your suggested actions."
